Payment technology leader with 13+ years driving international card payment programmes across Europe, spanning client onboarding, 3DS implementation, acquirer integration, and strategic relationship management with Tier 1 financial institutions. Deep technical grounding in ISO 8583, EMV, and PCI DSS, paired with strong project leadership and fluency across four languages. Recently completed MSc research on blockchain adoption in digital payments.

KEY COMPETENCIES

Payment Systems & Standards: ISO 8583, EMV, NFC, PCI DSS, Visa Base I/II, Tokenization, Apple Pay

Project & Stakeholder Management: Client onboarding, cross-functional coordination, Agile methodologies, team leadership

Regulatory & Compliance: PSD2, GDPR, Interchange Fee Regulation, PCI DSS

3DS & Fraud Prevention: 3DS 2.0 implementation, ACS solutions, risk management, advanced fraud protocols

Technical Skills: Python (data pipelines), HTML/CSS/JavaScript, SQL, GitHub Actions, static site generation

Languages: French & Portuguese (native), English & Spanish (professional fluency)

PROFESSIONAL EXPERIENCE

Customer Success Manager (CSM) — Outseer (RSA Security), London, UK Nov 2021 – Present

Own strategic relationships with Tier 1 clients across EMEA, advising on 3DS fraud prevention and Access Control Server (ACS) solutions; lead complex integrations from API design through QA and production deployment.

- Lead API integrations and 3DS 2.0 rollouts for major payment issuers across EMEA
- Align security, compliance, development, and IT teams on advanced fraud-prevention projects
- Deliver product training and technical documentation; sustain high satisfaction scores via quarterly surveys

Project Manager — Diners Club / Discover Financial Services, London, UK May 2017 – Nov 2021

Directed operational onboarding of Tier 1 acquirers across European markets and managed strategic relationships with major payment schemes, driving acceptance initiatives that expanded the Discover Global Network.

- Led the Crédit Mutuel Arkéa–Discover Global Network partnership (NASDAQ press release, 2019)
- Enabled La Banque Postale merchants to accept Discover cards (Business Wire, 2019)
- Onboarded 4 Tier 1 acquirers (3 in France, 1 in Spain) and delivered 3DS 2.0 end-to-end
- Ran pre-sales engagements and managed full-service implementations across e-commerce, digital wallets, and tokenization
- Owned Quality of Acceptance programmes, resolving transaction issues and ensuring regulatory compliance network-wide
- Coordinated with payment schemes (Frenchsys, Redsys, STMP, SIBS) and processors (Unicre, SIX, Ingenico)

Technical Account Manager – Business Support Operations — Visa Inc., London, UK Aug 2013 – Apr 2017

Delivered high-volume technical support to major financial institutions while consistently meeting SLAs; served as Subject Matter Expert for Tokenization (VTS), Digital Wallets, and Payment Stop services.
