

THIERRY AMIOT

Payment Technology Leader | 3DS & Fraud Prevention Specialist

London, UK | +44 7856 781158 | thierry@thierrymiot.com | linkedin.com/in/thierry-amiot-b92a7437

PROFESSIONAL SUMMARY

Results-driven Payment Technology Leader with 13+ years of experience delivering complex international card payment solutions across Europe. Proven track record in client onboarding, 3DS implementation, acquirer integration, and strategic relationship management with Tier 1 financial institutions.

Combines deep technical expertise in payment systems (ISO 8583, EMV, PCI DSS) with strong project leadership and multilingual communication skills (English, French, Spanish, Portuguese). Recently completed MSc research on Blockchain adoption in digital payments.

KEY COMPETENCIES

Payment Systems & Standards: ISO 8583, EMV, NFC, PCI DSS, Visa Base I/II, Tokenization, Apple Pay

3DS & Fraud Prevention: 3DS 2.0 implementation, ACS solutions, risk management, advanced fraud protocols

Project & Stakeholder Management: Client onboarding, cross-functional coordination, Agile methodologies, team leadership

Technical Skills: Python (data pipelines), HTML/CSS/JavaScript, SQL, GitHub Actions, Static Site Generation

Regulatory & Compliance: PSD2, GDPR, Interchange Fee Regulation, Payment Card Industry standards

Languages: French & Portuguese (Native), English & Spanish (Professional fluency)

PROFESSIONAL EXPERIENCE

Customer Success Manager (CSM) | Outseer (RSA Security), London, UK

November 2021 – Present

Manage strategic relationships with Tier 1 clients across EMEA, providing technical guidance on 3DS fraud prevention and Access Control Server (ACS) solutions. Lead complex 3DS integrations, API implementations, QA validation, and production deployments.

- Lead complex API integrations and 3DS 2.0 implementations for major payment issuers across EMEA region
- Coordinate cross-functional teams (security, compliance, development, IT) on advanced fraud prevention projects
- Deliver product training, technical documentation, and maintain high customer satisfaction metrics via quarterly surveys

Project Manager | Diners Club / Discover Financial Services, London, UK

May 2017 – November 2021

Led operational onboarding of Tier 1 acquirers on multiple European markets. Managed strategic relationships with major payment schemes. Drove acceptance initiatives and supported expansion of Discover Global Network.

- **[NASDAQ Press Release]** Led Credit Mutuel Arkea & Discover Global Network strategic partnership agreement (2019)

- **[Business Wire Coverage]** Enabled La Banque Postale merchant clients to accept Discover cards (2019)
- Led operational onboarding of 4 Tier 1 acquirers (3 France, 1 Spain); successfully delivered 3DS 2.0 implementation
- Conducted pre-sales engagements and managed end-to-end service implementations (E-commerce, Digital Wallets, Tokenization)
- Managed Quality of Acceptance programs, troubleshooting transaction issues and ensuring regulatory compliance across network
- Coordinated with major payment schemes (Frenchsys, Redsys, STMP, SIBS) and processors (Unicre, SIX, Ingenico)

Technical Account Manager – Business Support Operations | Visa Inc., London, UK

August 2013 – April 2017

Provided high-volume technical support to major financial institutions while consistently meeting SLAs. Subject Matter Expert (SME) for Tokenization (VTS), Digital Wallets, and Payment Stop services.

- Managed 60+ simultaneous technical queries for major international banks while maintaining SLA compliance
- Subject Matter Expert (SME) in Visa Token Service (VTS), V.me Digital Wallet, and Visa Europe Payment Stop Service
- Managed key accounts of major international banks, resolving complex technical and operational issues
- Mentored new team members and conducted internal knowledge-sharing sessions

EDUCATION

MSc International Management | Birkbeck, University of London (2016–2018)

Dissertation: "Blockchain: Diffusion of Innovation into Digital Payment" – Applied Rogers' Diffusion of Innovation theory to evaluate blockchain as alternative to card payment systems. Analyzed regulatory frameworks (PSD2, GDPR) and transaction cost models.

BA Management | Polytechnic Institute of Tomar, Portugal (2007–2010)

BA Language & Literature | University of Lisbon, Portugal (2005–2007)

ERASMUS Exchange | Mechelen University College, Belgium (2008–2009)

ADDITIONAL ACHIEVEMENTS & INTERESTS

Academic research on blockchain integration with traditional payment systems and PSD2/GDPR compliance frameworks. Completed long-distance cycling challenges (Visa Bike Ride: De Hoek to London, London to Paris – 500 miles). Finished multiple Hard Rock Half Marathons (Lisbon & Dublin).
